Contents

NUMBER 1, JANUARY 2000

1 *P. Hahn, H.-G. Schaller, P. Hafner & E. Hellwig:* Effect of different luting procedures on the seating of ceramic inlays

9 *M. Farella, A. Michelotti, M. H. Steenks, R. Romeo, R. Cimino & F. Bosman:* The diagnostic value of pressure algometry in myofascial pain of the jaw muscles

15 *Y. Sato, N. Shindoi, R. Hosokawa, K. Tsuga & Y. Akagawa:* A biomechanical effect of wide implant placement and offset placement of three implants in the posterior partially edentulous region

22 *A. Gavish, M. Halachmi, E. Winocur & E. Gazit:* Oral habits and their association with signs and symptoms of temporomandibular disorders in adolescent girls

33 *V. F. Ferrario, C. Sforza, A. Colombo & V. Ciusa:* An electromyographic investigation of masticatory muscles symmetry in normo-occlusion subjects

41 *H. Nikawa, C. Jin, T. Hamada & H. Murata:* Interactions between thermal cycled resilient denture lining materials, salivary and serum pellicles and *Candida albicans in vitro*. Part I. Effects on fungal growth

52 *A. U. J. Yap, L. F. K. L. Ong, S. H. Teoh & G. W. Hastings:* Comparative wear ranking of dental restoratives with the BIOMAT wear simulator. Part II. An SEM evaluation

60 *J. Kourie, A. Volchansky, P. E. Cleaton-Jones & J. Lownie:* Temperatures in and around mandibular fractures

64 *K. Murai, K. Okimoto, K. Matsuo & Y. Terada:* Study on masticatory movement and its ability: efficacy of a test capsule in the evaluation of masticatory movement

70 *A. G. Čelar, M. Kundi, E. Piehslinger, R. Fürhauser & B. Kohlmaier:* Mandibular position at chin-point guided closure, intercuspation and final deglutition in asymptomatic and temporomandibular dysfunction subjects

79 *H. Kurita, K. Ikeda & K. Kurashina:* Evaluation of the effect of a stabilization splint on occlusal force in patients with masticatory muscle disorders

83 *B. I. Cohen, M. K. Pagnillo, I. Newman, B. L. Musikant & A. S. Deutsch:* Pilot study of the cyclic fatigue characteristics of five endodontic posts with four core materials

NUMBER 2, FEBRUARY 2000

93 *A. Zöllner & P. Gaengler:* Pulp reactions to different preparation techniques on teeth exhibiting periodontal disease

103 *H. Kato, H. Matsumura & M. Atsuta:* Effect of etching and sandblasting on bond strength to sintered porcelain of unfilled resin

111 *J. S. Rees & P. H. Jacobsen:* The effect of interfacial failure around a class V composite restoration analysed by the finite element method

117 *A. U. J. Yap, S. Tan & T. Y. Teh:* The effect of polishing systems on microleakage of tooth coloured restoratives: Part 1. Conventional and resin-modified glass–ionomer cements

124 *H. Nikawa, C. Jin, T. Hamada, S. Makihira, H. Kumagai & H. Murata:* Interactions between thermal cycled resilient denture lining materials, salivary and serum pellicles and *Candida albicans in vitro*: Part II. Effects on fungal colonization

131 *L. da Silva, A. Martinez, B. Rilo & U. Santana:* Titanium for removable denture bases

136 *K. Agee, Y. Zhang & D. H. Pashley:* Effects of acids and additives on the susceptibility of human dentine to denaturation

142 *A. Milosevic & R. H. A. Samuels:* The post-orthodontic prevalence of temporomandibular disorder and functional occlusion contacts in surgical and non-surgical cases

149 *K. Moll & B. Haller:* Effect of intrinsic and extrinsic moisture on bond strength to dentine

165 *P. A. Pröschel & T. Morneburg:* Investigation of a possible relationship between kinematic points and condylar attachments of the lateral ligaments

174 *S. Minagi, T. Ohmori, T. Sato, T. Matsunaga & Y. Akamatsu:* Effect of eccentric clenching on mandibular deviation in the vicinity of mandibular rest position

179 *T. L. Erdem, İ. Özcan, D. İlgüy & Ş. Şirin:* Hereditary sensory and autonomic neuropathy: review and a case report with dental implications

NUMBER 3, MARCH 2000

183 *A. L. P. Yeung, E. C. M. Lo, T. W. Chow & R. K. F. Clark:* Oral health status of patients 5–6 years after placement of cobalt–chromium removable partial dentures

190 *C.-T. Lin, S.-Y. Lee, T.-Y. Tsai & D.-R. Dong:* Degradation of repaired denture base materials in simulated oral fluid

199 *A. Ćacute;atovićcacute;, V. Jerolimov & A. Ćacute;atićcacute;:* Tooth loss and the condition of the prosthodontic appliances in a group of elderly home residents

205 *A. U. J. Yap, M. L. Wong & A. C. Y. Lim:* The effect of polishing systems on microleakage of tooth-coloured restoratives. Part 2: Composite and polyacid-modified composite resins

211 *J. W. Verhoeven, M. S. Cune & C. de Putter:* Reliability of some clinical parameters of evaluation in implant dentistry

217 *A. Keshvad, R. B. Winstanley & T. Hooshmand:* Intercondylar width as a guide to setting up complete denture teeth

227 *H. Zafar, P.-O. Eriksson, E. Nordh & B. Häggman-Henrikson:* Wireless optoelectronic recordings of mandibular and associated head–neck movements in man: a methodological study

239 *W. Gurdsapsri, M. Ai, K. Baba & K. Fueki:* Influence of clenching level on intercuspal contact area in various regions of the dental arch

245 *K. Shibasaki, Y. Fujita, H. Yamasawa, E. Fukuyama & K. Soma:* Development of a new device for recording condylar head movement

250 *N. M. Mohsen, R. G. Craig & F. E. Filisko:* The effects of different additives on the dielectric relaxation and the dynamic mechanical properties of urethane dimethacrylate

Short Communication

269 *Mo. Sela, D. Maroz & I. Gedalia:* Streptococcus mutans in saliva of normal subjects and neck and head irradiated cancer subjects after consumption of honey
271 Book Reviews

NUMBER 4, APRIL 2000

275 *P. Palesy, G. M. Murray, J. De Boever & I. Klineberg:* The involvement of the styloid process in head and neck pain – a preliminary study
288 *N. Tanoue, H. Matsumura & M. Atsuta:* Comparative evaluation of secondary heat treatment and a high intensity light source for the improvement of properties of prosthetic composites
294 *M. I. Abu-Hassan, O. A. Abu-Hammad & A. Harrison:* Stress distribution associated with loaded ceramic onlay restorations with different designs of marginal preparation. An FEA study
299 *C. M. Visscher, J. J. R. Huddleston Slater, F. Lobbezoo & M. Naeije:* Kinematics of the human mandible for different head postures
306 *M. Taira, M. Okazaki, J. Takahashi & F. Kubo:* Effects of four mixing methods on setting expansion and compressive strength of six commercial phosphate-bonded silica investments
312 *J. L. Cunningham:* Shear bond strength of resin teeth to heat-cured and light-cured denture base resin
317 *T. Murakami, T. Harada, K. Abe & T. Tanaka:* Masticatory movement in two cases with unusual alignment of the maxillary canine
332 *Ü. Oltu & S. Gürgan:* Effects of three concentrations of carbamide peroxide on the structure of enamel
341 *R. G. Chadwick:* The thermal insulating effects of five dental gloves
344 *K. Penkner, W. Köle, J. Kainz, G. Schied & M. Lorenzoni:* The function of tensor veli palatini muscles in patients with aural symptoms and temporomandibular disorder. An EMG study
349 *E. Kotsiomiti & D. Kapari:* Resting tongue position and its relation to the state of the dentition: a pilot study
355 *H. Suenaga, R. Yamashita, Y. Yamabe, T. Torisu, T. Yoshimatsu & H. Fujii:* Regulation of human jaw tapping force with visual biofeedback
361 *K. Hai, T. Sawase, H. Matsumura, M. Atsuta, K. Baba & R. Hatada:* Corrosion resistance of a magnetic stainless steel ion-plated with titanium nitride

NUMBER 5, MAY 2000

Review

367 *J. A. De Boever, G. E. Carlsson & I. J. Klineberg:* Need for occlusal therapy and prosthodontic treatment in the management of temporomandibular disorders

380 *Y. Nishi, K. Tsuru, C. Kishita, T. Hamano, N. Kawahata & E. Nagaoka:* Impression pressures against teeth in a partially edentulous model with a mobile tooth: influence of impression tray design

387 *H. M. Ziada, J. F. Orr & I. C. Benington:* Photoelastic stress analysis in perforated (Rochette) resin bonded bridge design
394 *K. Wang, T. Arima, L. Arendt-Nielsen & P. Svensson:* EMG–force relationships are influenced by experimental jaw-muscle pain
403 *A. Ogunyinka:* The bond of two adhesive resins to alumina blasted and heat treated gold alloy surfaces
407 *N. Barghi, T. Berry & K. Chung:* Effects of timing and heat treatment of silanated porcelain on the bond strength
413 *K. Yamada, K. Hanada, H. Sultana, S. Kohno & Y. Yamada:* The relationship between frontal facial morphology and occlusal force in orthodontic patients with temporomandibular disorder
422 *A. U. J. Yap, K. W. Lye & C. W. Sau:* Effects of aging on repair of resin-modified glass–ionomer cements
428 *O. Gökay, M. Tunçbilek & R. Ertan:* Penetration of the pulp chamber by carbamide peroxide bleaching agents on teeth restored with a composite resin
432 Society for Oral Physiology Store Kro Group – Twenty-First Biennial Meeting. Abstracts of Selected Presentations.

NUMBER 6, JUNE 2000

461 *S. P. Studer, F. Wettstein, G. Lehner, T. G. Zullo & P. Schärer:* Long-term survival estimates of cast gold inlays and onlays with their analysis of failures
473 *K. Piquero & K. Sakurai:* A clinical diagnosis of diurnal (non-sleep) bruxism in denture wearers
483 *M. Zalkind, S. Shkury, N. Stern & I. Heling:* Effect of prefabricated metal post-head design on the retention of various core materials
488 *J. A. Bartoloni, D. F. Murchison, D. T. Wofford & N. K. Sarkar:* Degree of conversion in denture base materials for varied polymerization techniques
494 *L. V. Christensen & D. C. McKay:* Kinematic and kinetic observations on ballistic depression and elevation of the human mandible
508 *J. C. Wataha, J. B. Lewis, P. E. Lockwood & D. R. Rakich:* Effect of dental metal ions on glutathione levels in THP-1 human monocytes
517 *S. Minagi, T. Sato, K. Kishi, N. Natsuaki & Y. Akamatsu:* Comparative study of the temporomandibular joint space in maximum intercuspation and canine edge-to-edge positions in deep bite and non-deep bite subjects
522 *K. Hiromori, K. Fujii & K. Inoue:* Viscoelastic properties of denture base resins obtained by underwater test
532 *A. Segura, K. J. Donly & B. Quackenbush: In vitro* dentin demineralization inhibition effects of an experimental fluoridated hema and water wetting agent
538 *I. Akpinar, N. Anil & L. Parnas:* A natural tooth's stress distribution in occlusion with a dental implant
546 *M. Fukuda, T. Takahashi, T. Yamaguchi, S. Kochi, T. Inai, M. Watanabe & S. Echigo:* Dental rehabilitation using endosseous implants and orthognathic surgery in patients with cleft lip and palate: report of two cases

NUMBER 7, JULY 2000

Review

553 *S. Marklund & A. Wänman:* A century of controversy regarding the benefit or detriment of occlusal contacts on the mediotrusive side
563 *G. Bayramoğlu, T. Alemdaroğlu, S. Kedici & A. A. Aksüt:* The effect of pH on the corrosion of dental metal alloys
576 *S.-Y. Lee, D.-R. Dong, H.-M. Huang & Y.-H. Shih:* Fluoride ion diffusion from a glass–inomer cement
587 *S. Kawamoto & E. Nagaoka:* The effect of oestrogen deficiency on the alveolar bone resorption caused by traumatic occlusion
595 *M. Rosentritt, C. Fürer, M. Behr, R. Lang & G. Handel:* Comparison of *in vitro* fracture strength of metallic and tooth-coloured posts and cores
602 *N. H. J. Creugers & R. J. A. M. De Kanter:* Patients' satisfaction in two long-term clinical studies on resin-bonded bridges
608 *B. K. B. Berkovitz:* Crimping of collagen in the intra-articular disc of the temporomandibular joint: a comparative study
614 *E. Winocur, A. Gavish, M. Halachmi, A. Bloom & E. Gazit:* Generalized joint laxity and its relation with oral habits and temporomandibular disorders in adolescent girls
623 *K. Soeno, Y. Taira & M. Atsuta:* Influence of formaline cresol on bond strength of adhesive luting agents to dentin
629 *M. Lorenzoni, C. Pertl, K. Penkner, R. Polansky, B. Sedaj & W. A. Wegscheider:* Comparison of the transfer precision of three different impression materials in combination with transfer caps for the Frialit®-2 system
639 *K. Watanabe:* The relationship between dentofacial morphology and the isometric jaw-opening and closing muscle function as evaluated by electromyography

NUMBER 8, AUGUST 2000

Review

647 *J. A. De Boever, G. E. Carlsson & I. J. Klineberg:* Need for occlusal therapy and prosthodontic treatment in the management of temporomandibular disorders. Part II: tooth loss and prosthodontic treatment

660 *Y. Sato, Y. Abe, H. Okane & K. Tsuga:* Finite element analysis of stress relaxation in soft denture liner
664 *S. Hiyama, S. Iwamoto, T. Ono, Y. Ishiwata & T. Kuroda:* Genioglossus muscle activity during rhythmic open–close jaw movements
671 *I. Grunert, G. J. Grubwieser & H. Ulmer:* Bilateral investigation of the temporomandibular joint. An autopsy study of edentulous individuals
682 *J. F. Prinz:* Computer aided gnathosonic analysis: distinguishing between single and multiple tooth impact sounds
690 *N. Archadian, F. Kawano, T. Ohguri, T. Ichikawa & N. Matsumoto:* Flexural strength of rebased denture polymers
697 *K. Yugami, S. Yamashita, M. Ai & J. Takahashi:* Mandibular positions and jaw-closing muscle activity during sleep

703 *S. Minagi, M. Sakiya, T. Sato, T. Matsunaga & N. Natsuaki:* Vibrating-traction method for mechanical joint distraction
708 *P. Monsenego:* Presence of microorganisms on the fitting denture complete surface: study *'in vivo'*
714 *C. A. Burnett:* Clinical rest and closest speech positions in the determination of occlusal vertical dimension
720 *V. J. Miller, V. V. Karic, S. L. Myers & H. V. Exner:* Myogenous temporomandibular disorder patients and the temporomandibular opening index
723 *H. Yoshida, Y. Furuya, K. Shimodaira, T. Kanazawa, R. Kataoka & K. Takahashi:* Spectral characteristics of hypernasality in maxillectomy patients
731 *H. Miura, K. Miura, H. Mizugai, Y. Arai & E. Isogai:* Chewing ability and quality of life among the elderly residing in a rural community in Japan

NUMBER 9, SEPTEMBER 2000

Review

735 *J. H. Nunn:* Drooling: review of the literature and proposals for management

744 *J. Duyck, H. Van Oosterwyck, M. De Cooman, R. Puers, J. Vander Sloten & I. Naert:* Three-dimensional force measurements on oral implants: a methodological study
754 *E. Tanaka, D. P. Rodrigo, Y. Miyawaki, K. Lee, K. Yamaguchi & K. Tanne:* Stress distribution in the temporomandibular joint affected by anterior disc displacement: a three-dimensional analytic approach with the finite-element method
760 *T. Kanazawa, H. Yoshida, Y. Furuya & K. Shimodaira:* Sectional prosthesis with hollow obturator portion made of thin silicone layer over resin frame
765 *J. F. Prinz & M. R. Heath:* Bolus dimensions in normal chewing
769 *E. Ersöz:* Evaluation of stresses caused by dentin pin with finite elements stress analysis method
774 *S.-Y. Lee, C.-T. Lin, D.-R. Dong, H.-M. Huang & Y.-H. Shih:* Acoustic emissions generated in aged dental composites using a laser thermoacoustic technique
786 *M. D. Russell, M. Gulfraz & B. W. Moss: In vivo* measurement of colour changes in natural teeth
793 *K. Baba, S. Akishige, T. Yaka & M. Ai:* Influence of alteration of occlusal relationship on activity of jaw closing muscles and mandibular movement during submaximal clenching
802 *J.-D. Orthlieb, M. Laurent & O. Laplanche:* Cephalometric estimation of Vertical Dimension of Occlusion
808 *A. I. Abdalla:* Morphological interface between hybrid ionomers and dentin with and without smear-layer removal
815 *V. J. Miller, V. V. Karic, S. L. Myers & H. V. Exner:* The temporomandibular opening index (TOI) in patients with closed lock and a control group with no temporomandibular disorders (TMD): an initial study

817 *J.-Y. Koak, K.-N. Kim & S.-J. Heo:* A study on the mandibular movement of anterior openbite patients

NUMBER 10, OCTOBER 2000

Review

823 *A. Keshvad & R. B. Winstanley:* An appraisal of the literature on centric relation. Part I

834 *O. Plesh, D. Curtis, J. Levine & W. D. McCall Jr:* Amitriptyline treatment of chronic pain in patients with temporomandibular disorders

842 *Y. Sato, N. Shindoi, R. Hosokawa, K. Tsuga & Y. Akagawa:* Biomechanical effects of double or wide implants for single molar replacement in the posterior mandibular region

846 *H. Matsumura, M. Nakamura, N. Tanoue & M. Atsuta:* Clinical evaluation of an urethane tetramethacrylate-based composite material as a prosthetic veneering agent

853 *J.-P. van Loon, L. G. M. de Bont, B. Stegenga & G. J. Verkerke:* Fitting a temporomandibular joint prosthesis to the skull

860 *Z. J. Liu, K. Yamagata, K. Kuroe, S. Suenaga, T. Noikura & G. Ito:* Morphological and positional assessments of TMJ components and lateral pterygoid muscle in relation to symptoms and occlusion of patients with temporomandibular disorders

875 *N. X. West, J. A. Hughes & M. Addy:* Erosion of dentine and enamel *in vitro* by dietary acids: the effect of temperature, acid character, concentration and exposure time

881 *S. Yamashita, S. Sakai, J. P. Hatch & J. D. Rugh:* Relationship between oral function and occlusal support in denture wearers

887 *F. Lobbezoo, A. J. Zwijnenburg & M. Naeije:* Functional subdivision of the human masseter and temporalis muscles as shown by the condylar movement responce to electrical muscle stimulation

893 *K. Yamaguchi, Y. Morimoto, R. S. Nanda, J. Ghosh & K. Tanne:* Morphological differences in individuals with lip competence and incompetence based on electromyographic diagnosis

902 *Y. Kitagawa, S. Enomoto, Y. Nakamura & K. Hashimoto:* Asymmetry in jaw-jerk reflex latency in craniomandibular dysfunction patients with unilateral masseter pain

911 *Y. Yang, M. Yatabe, M. Ai & K. Soneda:* The relation of canine guidance with laterotrusive movements at the incisal point and working side condyle

NUMBER 11, NOVEMBER 2000

919 *C.-T. Lin, S.-Y. Lee, E.-S. Keh, D.-R. Dong, H.-M. Huang & Y.-H. Shih:* Influence of silanization and filler fraction on aged dental composites

927 *E. J. Sutow, W. A. Maillet, J. C. Taylor, K. L. Hanrahan, G. C. Hall & K. Harandi:* Considerations in measuring the electrical potentials of metallic restorations *in vivo*

935 *Y. Sato, K. Tsuga, Y. Abe, S. Asahara & Y. Akagawa:* Dimensional measurement and finite element analysis of I-bar clasps in clinical use

940 *T. Kuboki, Y. Takenami, K. Maekawa, M. Shinoda, A. Yamashita & G. T. Clark:* Biomechanical calculation of human TM joint loading with jaw opening
952 *Y. Sato, S. Hamada, Y. Akagawa & K. Tsuga:* A method for quantifying overall satisfaction of complete denture patients
958 *T. W. H. Yuen & P. R. Wilson:* The effect of venting on pulpward pressure transmission and seating on crown cementation: a laboratory study
967 *E. Fukuyama, Y. Fujita & K. Soma:* Changes in jaw-jerk on different levels of jaw closure and teeth-clenching in humans
979 *A. R. Au, S. K. Lechner, C. J. Thomas, T. Mori & P. Chung:* Titanium for removable partial dentures (III): 2-year clinical follow-up in an undergraduate programme
986 *J. C. Pinho, F. M. Caldas, M. J. Mora & U. Santana-Penín:* Electromyographic activity in patients with temporomandibular disorders
992 *J. F. Prinz & P. W. Lucas:* Saliva tannin interactions
996 *T. Sekita, S. Minakuchi, Y. Hirano, K. Kobayashi & M. Nagao:* Measuring system for lip movements using two video trackers
1001 *N. Nishijima, H. Hayasaki, A. Okamoto, S. Nakata, Y. Yamasaki & M. Nakata:* Difference in tracks between habitual open and close mandibular movements at the condyle in children
1006 *T. Ueno, K. Baba, K. Fueki, M. Ai & T. Ohyama:* Influence of protrusive tooth contact on tapping point distribution

NUMBER 12, DECEMBER 2000

Review

1013 *A. Keshvad & R.B. Winstanley:* An appraisal of the literature on centric relation. Part II

1024 *P. Hahn, M. Gustav & E. Hellwig:* An *in vitro* assessment of the strength of porcelain veneers dependent on tooth preparation
1030 *M. Patel, H. Tawfik, Y. Myint, D. Brocklehurst & J. W. Nicholson:* Factors affecting the ability of dental cements to alter the pH of lactic acid solutions
1034 *H. Kanayama, T. Kanie & K. Inoue:* Dynamic viscoelastic properties of photo-activated composite resins containing short glass fibres
1042 *R. Näpänkangas, M. A. M. Salonen & A. M. Raustia:* Influence of previous restoration of the tooth on prognosis of crowns with dowels
1047 *S.-Y. Lee, C.-T. Lin, M.-H. Wang, H. Tseng, H.-M. Huang, D.-R. Dong, L.-C. Pan & Y.-H. Shih:* Effect of temperature and flux concentration on soldering of base metal
1054 *H. Matsumura, N. Tanoue & M. Atsuta:* Adhesive bonding of stainless steels and thier component metals
1060 *T. Wille, E. C. Combe, I. J. Pesun & D. W. Giles:* Rheological characteristics of tooth bleaching materials
1064 *R. C. Fraga, L. R. L. Luca-Fraga & L. A. F. Pimenta:* Physical properties of resinous cements: an *in vitro* study
1068 *M. Taira, M. S. Toguchi, Y. Hamada, M. Okazaki, J. Takahashi, R. Ito, S. Toyosawa & N. Ijyuin:* Studies on cytotoxicity of nickel ions using C3H10T1/2 fibroblast cells

1073 *K. Miyaura, M. Morita, Y. Matsuka, A. Yamashita & T. Watanabe:* Rehabilitation of biting abilities in patients with different types of dental prostheses

1077 *M. Toparli, N. Gökay & T. Aksoy:* An investigation of temperature and stress distribution on a restored maxillary second premolar tooth using a three-dimensional finite element method

1082 **Index to Volume 27**
